Team name: VoxPost NG · **Members:** 2

1. Muideen Ilori — AI/ML Engineer (team lead)

Email	ilorimuideen0000@gmail.com
GitHub	https://github.com/Muideen27
Role in this project	Architecture, N-ATLaS ASR and LLM integration, Postcode API integration, backend, web app, privacy design, evaluation, pilot sessions, documentation

ML/AI Engineer and developer at Ha-Shem Limited, where he built HavisIQ, an AI-powered product and service engagement platform with grounded chat, search and source management. Also an instructor and assessor in an AI/ML training programme (Python, FastAPI, Git). Focus: practical, grounded AI that works for Nigerians in their own languages.

2. Olakanmi Joshua — Product Manager

Email	josholamidele@gmail.com
Role in this project	Product direction and roadmap, user research and feedback, tester outreach, partnerships and go-to-market planning

Declaration

Both team members, Muideen Ilori and Olakanmi Joshua, declare that this is original work built for NAIC 2026. It has not been awarded in any other competition.

N-ATLaS is an initiative of the Federal Ministry of Communications, Innovation and Digital Economy, and powered by Awarri Technologies.
